Criterion-2 Student-Support, Services& Progression

2.10 Remedial Classes /Bridge Courses

Remedial classes or bridge courses are designed to support students who need additional academic help to meet the required level of understanding in various subjects. These programmes help students strengthen their basics so they can confidently cope with the regular curriculum. Bridge courses are usually offered at the beginning of the academic session to help new students transition smoothly from school to college. Remedial classes, on the other hand, are conducted throughout the year to assist learners who face difficulties in particular subjects.

Through these classes, teachers focus on simplified explanations, extra practice, doubt-clearing sessions, and personalized attention. They help improve learning outcomes, reduce academic stress, and build student confidence. Overall, remedial and bridge courses play an important role in supporting slow learners, promoting inclusive education, and ensuring that every student can perform well in their academic journey.
