## **Criterion-2 Student-Support, Services& Progression**

### **2.8 Mentor-Mentee Groups:**

The Mentor–Mentee system is designed to provide continuous academic, emotional, and personal support to students. Under this system, each student (mentee) is assigned a faculty member (mentor) who guides them throughout the academic session. Mentors regularly interact with their mentees to understand their academic progress, personal challenges, career goals, and overall well-being. They offer counseling, monitor attendance and performance, and help students develop confidence and essential life skills.

This system strengthens the bond between students and teachers, helps in early identification of problems, and creates a supportive and positive learning environment. Overall, the Mentor–Mentee programme plays a vital role in the holistic development of students and ensures they get proper guidance throughout their college journey.
