3.3.2 Use of ICT facilities by teachers

In the current time, the use of ICT has made the teaching learning process very interesting and effective. When it comes to our college staff, there is 100 percent use of ICT. The teaching faculty of the college is using the ICT facilities of the college in some way or another. Teachers use ICT during several activities, such as while preparing a lecture, collecting required content material, collecting information regarding research work, uploading marks or internal assessment, and in miscellaneous works as well.
