About the College: About the College: The college is affiliated with Sardar Patel University, Mandi, (HP). It is making rapid efforts to nurture the students and provide them with holistic education. Besides, the postgraduate courses in English, Hindi, Political Science, various undergraduate courses are being run under the streams of Science, Humanities and Commerce under the Choice Based Credit system (CBCS). The students are given a choice to opt for various subjects in Humanities like English, Hindi, Sanskrit, History, Political Science, Economics, Sociology, Public Administration, Music (I), Music (V) and Geography. The students of Science can opt for a B.Sc. in Life Science with the subjects- Botany, Zoology and Chemistry and B.Sc. in Physical Sciences with Physics, Chemistry, Computer Science, and Mathematics as options. The Faculty of Commerce offers various courses in B. Com. Degree. The college is committed to qualitative, value-based and progressive education. The emphasis is laid upon grooming a wholesome personality. The work culture of the college is in consonance with the vision and the mission statements. The college is progressing every year towards newer heights.

About the FDP: In the rapidly evolving landscape of education, the integration of technology has become imperative for keeping pace with the needs of a digitally native generation. One of the most transformative technologies in this regard is Artificial Intelligence (AI). Faculty Development Programs (FDP) on the use of AI in education have emerged as crucial initiatives to equip educators with the knowledge and skills to harness the potential of AI for enhancing teaching and learning. Faculty Development Programs focusing on the use of AI in education are indispensable for preparing educators to navigate the technology-driven future of learning. By equipping educators with the knowledge and skills to harness AI's potential, we can ensure that education remains relevant, effective, and engaging for the next generation of learners. These programs must be designed to address the unique needs and challenges of individual educational institutions and the educators they serve, enabling a successful integration of AI into the educational landscape.

Online National Faculty Development Programme

“Harnessing AI Tools: A Step Towards Strategic Teaching Approach”

Organised by Government College Karsog, District Mandi (H.P.) in collaboration with

Nucleus of Learning and Development

(23–28 December 2024)

A Report

Government College Karsog, District Mandi, Himachal Pradesh, in academic collaboration with the Nucleus of Learning and Development, successfully organized a six-day Online National Faculty Development Program (FDP) titled “*Harnessing AI Tools: A Step Towards Strategic Teaching Approach*” from 23rd to 28th December 2024. The sessions were conducted daily from 8:00 pm to 9:00 pm through an online platform and witnessed enthusiastic participation from faculty members across the country. The FDP was conceptualized with the objective of equipping teachers with emerging technological competencies, with a special focus on Artificial Intelligence (AI) and its pedagogical applications in higher education. The inaugural session commenced with a formal welcome address by the Principal of Government College Karsog, who highlighted the growing relevance of AI-driven teaching methodologies in modern classrooms. Representatives from the Nucleus of Learning and Development also shared their vision of empowering educators through structured, skill-oriented training programmes. Across six days, resource persons from reputed institutions and EdTech organisations conducted insightful sessions on a wide range of topics. The program covered fundamentals of AI, introduction to prominent AI tools for academic assistance, AI-supported content creation, digital assessment methods, and strategies to integrate AI into existing teaching plans. Demonstrations were provided on AI-based lesson planning, automated feedback mechanisms, data-driven student evaluation, and tools that help enhance research productivity. Participants also explored ethical considerations, responsible use of AI, and challenges associated with adopting new technologies in educational settings. Each session was designed to be interactive, allowing participants to engage in live demonstrations, discussions, and question–answer segments. Faculty members shared their classroom experiences and reflected on the potential of AI to make learning more personalised,
