

7.2 Spot Evaluation of Institutions by the Officers from the Directorate of Higher Education/ Representatives of the Director of Higher Education

Spot Evaluation of Institution by Officers from the Directorate of Higher Education

A team of officers representing the Directorate of Higher Education visited the college to conduct a spot evaluation as part of the institutional assessment and quality monitoring process. During the visit, the evaluation team inspected various academic and administrative facilities of the institution. As part of the evaluation, the team specifically reviewed the college library to assess its infrastructure, learning resources, digital facilities, record maintenance, and overall functioning. The officers examined the availability of books, journals, e-resources, seating arrangements, automation of library services, and support provided to students and faculty.

The visiting team carried out library grading based on the standards and guidelines prescribed by the Department of Higher Education. The evaluation aimed to ensure that the library effectively supports teaching, learning, and research activities within the institution. The college extended full cooperation to the visiting officers by providing all required records, documents, and access to facilities during the assessment process.
