Suggestions from Alumni

No
Alumni must come together for much stronger Alumni Association which may contribute in the development of this Institution.
Gc karsog is the best college
Nothing
College should have complete faculty and the Labs should be equipped with latest instruments.
Nothing
I consider myself very fortunate that I got the opportunity to study from this college, I have learned a lot from here in three years. I consider the teachers and non-teaching staff here as worthy of appreciation. Many thanks to this college for guiding me towards a good future
No suggestions
Need to enhance the infrastructure facilities and addition of vocational and professional courses must be there
Entire staff is very nice and infrastructure also good. Peace and learning become more interesting in library
My clg experience was average...the way teacher taught was not satisfying...ya I knw mostly it depends on students but the role of teacher we should not forget...some teacher's were good nd others poor in the sence the way of delivering lecture nd most important heart of clg aka LIBRARY... I don't know what's wrong with library staff they don't even know how to talk students ...
Enhance the mental skills of the students.

career oriented sessions should be conducted more oftenly so that students can know various job occupations they can pursue after completing graduation.
Nothing
May this college prosper by leaps and bounds
Excellent working
Need to provide more books library but overall is very good
Everything is amazing. But one suggestion is for Zoology Department. The vacancy of zoology teacher should be fulfilled by the college. Because the single teacher faces so much difficulties to handle or manage the whole classes or students with practical's alone. Thank you. 🙏
Respected Coordinator I am sharing my suggestion that our esteemed College has a good environment for imparting quality education. But still, in some subject areas, a low number of majors or students are interested in enrolling. The College administration must try to find out the causes and apply some measures. The required faculty positions must be filled. The College can organize and manage some initiatives, activities, interactions, and visits. Some field-specific individuals, professionals, or alumni of the college may be involved or invited to create interest in their field area. Thanks
